Contribution Statement

Viraj

- Wrote the Introduction section, including background, INSPIRE overview, motivation, and research questions.
- Created the project overview diagram.
- Refined and formatted the draft, ensuring that it meets the 8-page limit.

Majed

- Conducted and wrote the Data Integrity and Sanity Check analysis, including schema review, time-variable evaluation, and lab measurement validation.
- Identified inconsistencies in variable descriptions, time ordering, and data completeness.
- Refined and formatted the draft, ensuring that it meets the 8-page limit.

Jake

- Conducted and wrote the Inference and Prediction section.
- Reproduced the INSPIRE 30-day mortality XGBoost model and evaluated its assumptions.
- Built the ICU admission prediction model, engineered preoperative features, and reported final performance.
